STAFFORD H. PARKER, Begister, GEORGE W. MUNFORD, Secretary of the Commonwealth of Yirginia, Unminicatoriers of the Sinking Pend. Unintissioners of the Sinking Pand.

Nork—Those holders of certificates who desire to relicent by attorney tigas, if reading beyond the limits of the finited States, akknowledge the power before some limits or tempotentiary, charge d'attaries, consul general, consul, vice consul; or commercial agent, appointed by the government of the United States to any foreign country; or before the proper officer of any court of such country, of the triayer or other chief diagistrate of any city, town, or corporation therein. If resking in the United States, the akknowledgment before a justice of the peace, notary public, or commissioner of deeds appointed by the governor of Vignina is sufficient. In all cites the certificate must be delivered. RICHOSON, VA., July 31, 1857.

July 31—Lawam

OFFERED FOR SALE TO THE PUBLIC IN LOTS.

realth shows that the buildings alone are worth \$80,000; the assessment per acre is put at \$84. Such property requires more liberal e-enditures for the public accommodation than individuals are able wining to resk, and the fact Had, so many will be interested in the success of the Springs, and in building around them, will probably double, immediately after the company is formed, the present estimate. A subscriber will, in the worst event, get a lot (of the almost universal dimensions in New York) for the sum of ten dollars. He will get a lot on which he can build, at the very fountain of health; he may reside on it for the summer season only, or for the year. The inducements to build will be irresistible; and the fact of such buildings being erected will immeasurably enhance the value of the Springs and of the lots. There is no reason why a city of magnitude should not rise up and flourish at this place. The Rappahanucck river is navigable to the spot. A very little energy would always keep the looks in repair. The Alexandria and Lynchburg railroad crosses the river about 5 or 9 miles below this land. Coal, at a cheap rate, may be unloaded from the cars into the boats. Indefinite steam power may thus be commanded at will; and the facility of transportation gives the same advantages which Lowell has for unlimited business. The railroad, already within 6 miles, will some extend to New Orleans, whose inhabitants may then reach these Springs in three days. As healthy a spot as any in Virginia—in an abundant region—with all these facilities why should not a city thrive and prosper here? At all events, around these healthgiving waters, already so extensively and beautifully improved, all, the high and the low, the rich and the poor, have now an opportunity of sejourning for the summer season, or longer, on terms graduated by their means; and the benignant design of the tegislature in granting the charter may be realized to the fullest extent.

This property is tendered to the public at about the value on which the taxes are paid to the State, and greaty below the original outlay. The assessment was made by an intelligent public officer noway interested. Almost indefinite protits may be realized to the fullest e

THOMAS OFFEN

Norm .- I. All the streets are 60 feet wide, and run north and south.

NOTE.—1. All the streets are 60 feet wide, and run north and south, east and west.

2. Each square, in the plan, fronts 250 feet on streets running east and west, and 220 feet on streets running for the streets and alley) combins about two acres.

3. No payment of even the \$10 is required till it is ascertained, by the number of subscribers, that a city is to be built; in which event the value must greatly exceed the cost.

4. In the partition the 10,000 lots will be represented by tokens, with the number of square and of lot on each. These tokens will be put in the same vessel with 2,500 similar ones, marked "1 share of stock." In another vessel subscribers, manes will be put, (such name repeated according to the number of shares be may have taken,) and in the drawing, as in the division of large estates among numerous beirs, each will thus have an equal chaince with any other of getting a share of Spring stock, or the more highly valued tot.

The 2,500 who get the shares of stock will, for the agreegate sum of only \$25,000, get the 63 acres, michaling the Sulphur Spring, the buildings, (assessed at \$50,600) and the farminer.

Those who get suitable building loss for large hetels may be still more successful, while those least fortunate will get building loss of 25 by 100 feet, that must be worth, as the population increases, much more than the cost.

8. Subscription lines and lithographic plans of the proposed city are

by 100 feet, that must be worth, as the population increases, must nore than the cost.

Subscription lists and lithographic plans of the proposed city are left at most of the teolestores and other public places in this city. The agents having them can become the representatives of the respective subscribers, and in surrendering the lists can get assurance of the decids. The payments and the drawing are desired to be at the same time, or the subscription may be deposited in any solvent bank, to be paid to Robert Hudgin on the day of partition.

Letters to the subscriber in this city will receive attention from Aug 1

PROSPECTUS

WASHINGTON UNION.

New Volume, New Types, and New Arrangements.

TO THE NATIONAL DESCRIPTION OF THE UNITED STATES. THE undersigned takes this method of informing

support which has hitherto been extended to this time honored organ of the democracy, and without which his labors would beload be profilless.

Under the new arrangement, the typographical appearance of the Union has been outirely changed and unproved. New and beautiful type is now used in its daily, sent-weekly, and weekly issues, and the slipper given which it is printed is of an extra superport quality. It is not intention for enlarge its size, as the demands or the necessities of the future may require deal it is my infention for enlarge its size, as the demands or the necessities of the future may require deal it is my fixed purpose to spare mether spaces on effort to make it this freat control organ of the essential and relatively every way, worthy of their confliction and support, and a relatively every way, worthy of their confliction are support, and a relatively every way, worthy of their confliction are support, and a relatively every way, worthy of their confliction are support, and a relative to the first of the state of the substantial form of the sumministration all the support which party fixe and perceival recombing can inspire. A great crisis in the affairs of the country—a chair fraught with peril and danger to the rights of the States and the permanency of the Union—demonstrated to the national democracy and the party which people of the country that his acknowledged lalents, material wisdom, approved statesmanchip, and long experience, were necessary to their peace and safely, and they placed him, with acclumations, at the head of the government and the nation. He realized at once their hopes and expectations by calling to his assistance a cabinet of non-combining the rarest qualifications of talents, experience, and statesmanlip—men enheared to the democratic party by all their antecedents; by the zeal which they had displayed and the services which they had democrated because of the country, in supporting and suislabing the principles, the measures, and the policy of our party. A few week

in the liables of every farmer, mechanic, and working-man in the country.

The subscription price of the Builty Vision is ten dollars per annum. The Tri-Weekly (published semi-weekly during the recess of Congress) is five dollars per annum, and contains all the resisting under which appears in the Euly. The Weekly Union is furnished to subscribers at the low rate of one dollar per annum, and contains all the resisting under which appears in the Luly. The Weekly Union is furnished to subscribers at the low rate of one dollar per annum, and is justly regarded as the cheapest political paper in the world. It is a large and handsomely printed sheet, and contains as much reading matter in the course of a twelvenough as would make tusive ordinary occure rolume. It will be found its presents the advantages of both a political and a family newspaper. The times important political articles of the daily lesses are transferred to the weekly; and during the sutting of Congress a careful abstract of the daily proceedings of the two founds is prepared exclusively for its columns. It contains, besides all important Eulei-pars of the year, election returns from every Slate in the Union, speeches of distinguished democrats in and out of Congress, interesting correspondence, a full summary of foreign and domestic news, and from week to week such information in regard to the agricultural, manufacturing, and commercial interests of the country as will be found, it is believed, off perticular value.

That the Weekly Durion is differentiated in the most substantial manner by democrats in every section of the Union, no better evidence need be desired than is furnished by its rapidly-insercesing circulation. Within eighteen months society thousand new names have been added to the subscription list, and, with the slightest exertion on the part of our friends, its circulation can be increased to one hundred thousand copied to the value of the Weekly Union to correct misrepresentations, expect falsohood, dispelerer, and to bring before t
